Spring 2016

The Catholic Schools Office of the Diocese of Phoenix expresses gratitude to the Elementary Social Studies Curriculum Committee for its work in revising and updating the Social Studies Curriculum Standards. A successful social studies curriculum prepares all students to learn and evaluate the contributions of the past, sufficiently understand the needs of the present, and look at the world of the twenty-first century in order to understand the legacy which we must leave. The study of the social sciences in the context of the principles of social justice of the Catholic Church prepares students to contribute to a democratic society, while recognizing our interdependence and responsibility for the global community. Social studies education is critical for every student at the elementary level. Five strands (History, Government/Current Events, Geography, Economics, and Catholic Identity/Social Justice) form a framework for instruction and learning. Our goal is to develop standards whose content blends well with content from other subjects at each specified grade level to encourage cross curricular teaching and unit development.

We are grateful to the Archdiocese of Cincinnati for providing a model of excellent standards that interweave Social Catholic Teaching throughout their K-12 program, and, of which, we have chosen to model our format.

It is our hope that these Standards assist our schools in developing students who will go out into the greater society as socially-conscious citizens who will work to maintain the stability of the family, protect the environment, sustain just government systems, and express a love for God and all God has made.

Sincerely,

A handwritten signature in cursive script that reads "MaryBeth Mueller".

Philosophy and Goals

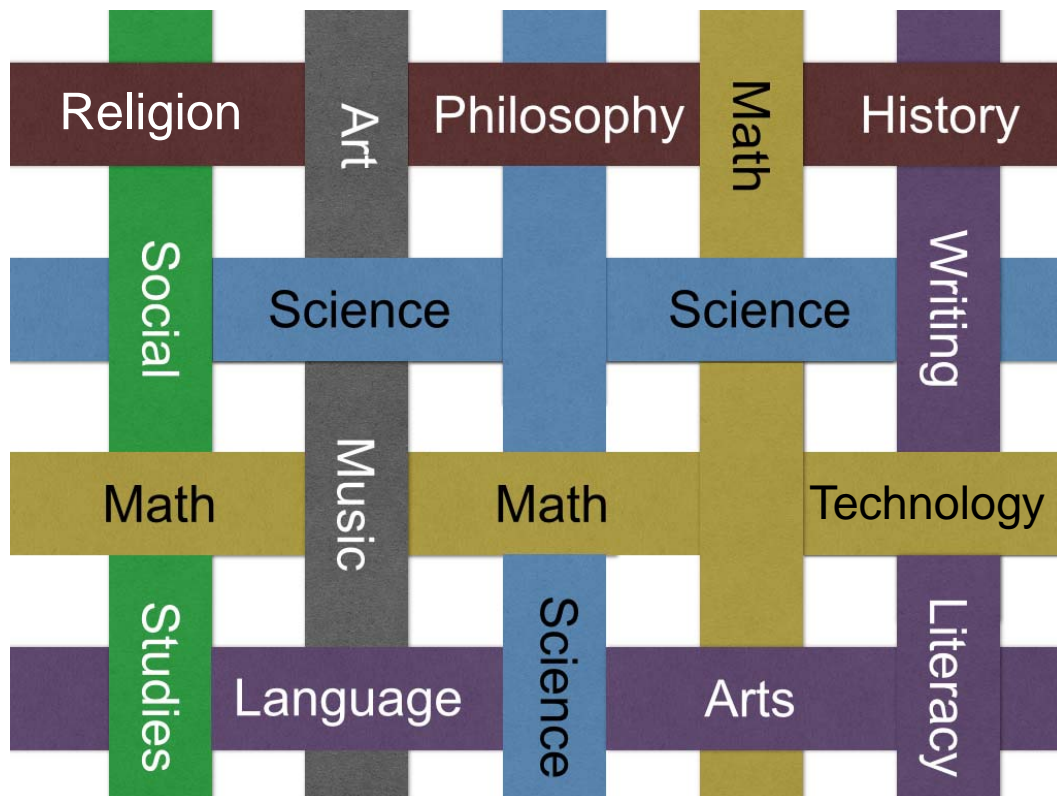

The teachers of Social Studies support a curriculum that guides the development of citizens who will uphold democratic principles, and develop their abilities to think critically and logically. The curriculum emphasizes our Catholic global awareness of the sacredness of all human life, and our responsibility to become ethical, involved, participating members of our society. We seek to develop future global leaders who will serve the Church, the nation, and the world within the framework of Gospel values. It is our hope that students will enter public life as community leaders to act on our Catholic faith and moral convictions, to share our experience in serving the poor and vulnerable, and to participate in the dialogue over our nation's future. Students must develop skills to help them know and understand social studies, and apply problem-solving strategies for the essential questions of today and tomorrow. These skills, grounded in Catholic teaching, will enable students to cope with problems using sound reason, empirical evidence, and good judgment. Students are to be socially-conscious citizens who will work to maintain the stability of family, protect the environment, sustain just government systems, and develop a love for God and all God's creations.

The goals of the diocesan social studies curriculum standards are:

- to nurture well-developed values based on Catholic teachings and democratic principles.
- to understand how the actions of people throughout history have caused social, economic, and global problems.
- to develop an awareness of how people throughout history have solved social, economic, and global problems.
- to increase and apply geographic knowledge to the formation of the world today;
- to help form articulate, socially-conscious citizens who will work for peace and social justice in the world.
- to produce moral Catholic leaders well versed in contemporary issues; and
- to help form critical thinkers who make unbiased decisions based on facts.

Curriculum Design Philosophy Statement

The Social Studies Curriculum Committee for elementary schools believes that Social Studies can be creatively intertwined in many other subject areas so that students receive a practical and applicable understanding of history, geography, government, and economics. We encourage teachers to think about curriculum design as layered and integrated, never isolated and compartmentalized.

Standards Coding

Each grade level includes 5 standard categories: Catholic Identity (CI), History (H), Geography (G), Government (GOV) and Economics (E). Each standard is marked with the appropriate grade level, standard category, and identifying number within the category.

Example: **5.CI.6** translates to Grade **5**, **Catholic Identity** category, Standard **6**

National Standards and Benchmarks for effective Catholic Elementary and Secondary Schools March 2012

Academic Excellence:

The United States Conference of Catholic Bishops affirms the message of the Congregation on Catholic Education that intellectual development of the person and growth as a Christian go forward hand in hand. Rooted in the mission of the Church, the Catholic school brings faith, culture and life together in harmony. In 2005, the bishops noted that “young people of the third millennium must be a source of energy and leadership in our church and our nation. And, therefore, we must provide young people with an academically rigorous and doctrinally sound program of education” (*Renewing Our Commitment to Catholic Elementary and Secondary School in the Third Millennium, 2005*).

The essential elements of “an academically rigorous and doctrinally sound program” mandate curricular experiences-including co-curricular and extra-curricular activities-which are rigorous, relevant, research-based, and infused with Catholic faith and traditions. The following essential elements provide a framework for the design, implementation, and assessment of authentic academic excellence in Catholic school education from pre-kindergarten through secondary school.

Standard 7: An excellent Catholic school has a clearly articulated, rigorous curriculum aligned with relevant standards, 21st century skills, and Gospel values, implemented through effective instruction. *BENCHMARKS:*

7.1	The curriculum adheres to appropriate, delineated standards, and is vertically aligned to ensure that every student successfully completes a rigorous and coherent sequence of academic courses based on the standards and rooted in Catholic values.
7.2	Standards are adopted across the curriculum, and include integration of the religious, spiritual, moral, and ethical dimensions of learning in all subjects.
7.3	Curriculum and instruction for the 21 st century learning provide students with the knowledge, understanding and skills to become creative, reflective, literate, critical, and moral evaluators, problem solvers, decision makers, and socially responsible global citizens.
7.4	Curriculum and instruction for 21 st century learning prepares students to become expert users of technology, able to create, publish, and critique digital products that reflect their understanding of the content and their technological skills.
7.5	Classroom instruction is designed to intentionally address the effective dimensions of learning, such as intellectual and social dispositions, relationship building, and habits of mind.
7.6	Classroom instruction is designed to engage and motivate all students, addressing the diverse needs and capabilities of each student, and accommodating students with special needs as fully as possible.
7.7	Faculty collaborate in professional learning communities to develop, implement and continuously improve the effectiveness of the curriculum and instruction to result in high levels of student achievement.
7.8	The faculty and professional support staff meet (arch) diocesan, state, and/or national requirements for academic preparation and licensing to ensure their capacity to provide effective curriculum and instruction.
7.9	Faculty and professional support staff demonstrate and continuously improve knowledge and skills necessary for effective instruction, cultural sensitivity, and modeling of Gospel values.
7.10	Faculty and staff engage in high quality professional development, including religious formation, and are accountable for implementation that supports student learning.

Standard 8: An excellent Catholic school uses school-wide assessment methods and practices to document student learning and program effectiveness, to make student performances transparent, and to inform the continuous review of curriculum and the improvement of instructional practices. *BENCHMARKS:*

8.1	School-wide and student data generated by a variety of tools are used to monitor, review, and evaluate the curriculum and co-curricular programs; to plan for continued and sustained student growth; and to monitor and assess faculty performance.
8.2	School-wide and aggregated student data are normed to appropriate populations and are shared with all stakeholders.
8.3	Faculty use a variety of curriculum-based assessments aligned with learning outcomes and instructional practices to assess student learning, including formative, summative, authentic performance, and student self-assessment.
8.4	Criteria used to evaluate student work and the reporting mechanisms are valid, consistent, transparent, and justly administered.
8.5	Faculty collaborate in professional learning communities to monitor individual and class-wide student learning through methods such as common assessments and rubrics.

Standard 9 An excellent Catholic school provides programs and services aligned with the mission to enrich the academic program and support the development of student and family life. *BENCHMARKS:*

9.1	School-wide programs for parents/guardians provide opportunities for parents/guardians to partner with school leaders, faculty, and other parents/guardians to enhance the educational experiences for the school community.
9.2	Guidance services, wellness programs, behavior management programs, and ancillary services provide the necessary support for students to successfully complete the school program.
9.3	Co-curricular and extra-curricular activities provide opportunities outside the classroom for students to further identify and develop their gifts and talents and to enhance their creative, aesthetic, social/emotional, physical, and spiritual capabilities.

Fifth Grade

Early American Peoples Through Early Westward Expansion

Fifth grade students will establish an understanding of Early American peoples through the War of 1812, with a focus on the development of the United States, its government, people and geography with an emphasis on recognizing the relationship of our Catholic identity and social justice to the formation of our country.

PLANNING AND TEACHING TIP: The Social Studies Standards are grouped in 5 categories that can be taught concurrently with one another. The order of the categories is not meant to suggest chronology or priority. For example, a Catholic Identity standard can be taught concurrently with 2 geography standards and 2 history standards in a lesson or unit.

Appendix B: The Seven Themes of Catholic Social Teaching

- Catholic Teaching on the Life and Dignity of the Human Person: Every human person is created in the image and likeness of God. Therefore, each person's life and dignity must be respected, whether that person is an innocent unborn child in a mother's womb, whether that person worked in the World Trade Center or a market in Baghdad, or even whether that person is a convicted criminal on death row. We believe that every human life is sacred from conception to natural death, that people are more important than things, and that the measure of every institution is whether it protects and respects the life and dignity of the human person. — USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 13

- Catholic Teaching on the Call to Family, Community, and Participation: The human person is not only sacred, but social. The God-given institutions of marriage— a lifelong commitment between a man and a woman—and family are central and serve as the foundations for social life. Marriage and family should be supported and strengthened, not undermined. Every person has a right to participate in social, economic, and political life and a corresponding duty to work for the advancement of the common good and the well-being of all, especially the poor and weak. —USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 13

- Catholic Teaching on Solidarity: We are one human family. We are our brothers' and sisters' keepers, wherever they may be. Pope John Paul II insists, "We are all really responsible for all." Loving our neighbor has global dimensions in a shrinking world. At the core of the virtue of solidarity is the pursuit of justice and peace. Pope Paul VI taught that "if you want peace, work for justice." The Gospel calls us to be "peacemakers." Our love for all our sisters and brothers demands that we be "sentinels of peace" in a world wounded by violence and conflict. —USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 15

- Catholic Teaching on the Dignity of Work: The economy must serve people, not the other way around. Work is more than a way to make a living; it is a form of continuing participation in God's act of creation. If the dignity of work is to be protected, then the basic rights of workers, owners, and others must be respected—the right to productive work, to decent and fair wages, to organize and choose to join a union, to economic initiative, and to ownership and private property. These rights must be exercised in ways that advance the common good. — USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 15

- Catholic Teaching on Rights and Responsibilities: Every person has a fundamental right to life— the right that makes all other rights possible. Each person also has a right to the conditions for living a decent life—faith and family life, food and shelter, education and employment, health care and housing. We also have a duty to secure and respect these rights not only for ourselves, but for others, and to fulfill our responsibilities to our families, to each other, and to the larger society. —USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 14

- Catholic Teaching on the Option for the Poor and Vulnerable: Scripture teaches that God has a special concern for the poor and vulnerable. The Church calls on all of us to embrace this preferential option for the poor and vulnerable, to embody it in our lives, and to work to have it shape public policies and priorities. A fundamental measure of our society is how we care for and stand with the poor and vulnerable. —USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 15

- Catholic Teaching on Caring for God's Creation: The world that God created has been entrusted to us. Our use of it must be directed by God's plan for creation, not simply for our own benefit. Our stewardship of the Earth is a form of participation in God's act of creating and sustaining the world. In our use of creation, we must be guided by a concern for generations to come. We show our respect for the Creator by our care for creation. —USCCB Administrative Committee, *Faithful Citizenship: A Catholic Call to Political Responsibility*, p. 15
