

Secondary English Language Arts Curriculum Standards Guide Appendix B:

Secondary Course Assigned Literature Book List Updated August 2013

This Literature Book List was prepared by the High School Literature Committee during the school year 2008-2009. This list meets the criteria of the High School Literature Policy found on pages 9-11 of the Secondary English Language Arts Curriculum Standards of August 2013. Refer to this policy before using any literature selections in your class.

This list was revisited by some members of the 2013 ELA committee plus a number of other high school faculty members in the summer of 2015. Throughout the course of the 2015-16 school year, the list was slightly revised with recommendations from the 2015 meeting. This revised list also includes Lexile scores for the books for which Lexile scores are available. Lexile scores help teachers, students, and parents ensure that a student is reading a text that is appropriate for their reading ability level.

The Secondary Book List is in alphabetical order with the grade indicated as a minimum class level for use: "F" indicates fiction; "NF" indicates non-fiction. Parents always have the prerogative to request a different selection should they have objections to the required selection. The Literature List will continue to be updated periodically.
